

DESIGNED BY . . . GOD: THE FALL | GENESIS 3:1-24

God created everything. He created man and woman and the first marriage. He set the DNA for the first family and the family structure by which the world would become populated. If God's design was very good, why aren't we living happily ever after? Why is there sin and suffering in the world? What happened to God's design? Adam and Eve would choose to reject God's way and go their own. This has led to conflict in marriage, families, and society at large. Everyone seeks to determine what is good apart from God. When we depart from God's design, the consequence is destruction. What can we learn from the Fall of man?

1. _____ God's Word and design led to sin and suffering and continues to bring the same consequences today.
2. The consequences of the Fall include _____ tension and conflict.
3. _____ against God spawns more _____.
4. God's rescue plan from the beginning included _____.
