

CONTENDING FOR THE FAITH | EXPOSING APOSTATES -JUDE
JUDE 11-16

In essence this message is a sequel to last week's message on The Profile of an Infiltrator. Jude had to challenge believers to identify those infiltrating the church and then to contend for the faith. He developed the profile of these insidious people who snuck into the church using examples that would have been familiar to his audience. He would expose these apostates further as he continued to write. Jude uses more familiar examples from the Old Testament and vivid examples from nature. He would share a prophecy from the past to let the church know that God will not let these ungodly people get away with their evil works. Again, what do these insidious infiltrators look like and what are the consequences of their actions? How are we to respond to them?

1. Their _____ focus leads them to deny God's _____ . 11

2. They are _____ that _____ the part, but do not do the _____ of God. 12-13

3. The Lord will not allow these _____, bad actors to go _____ . 14-16
